

# Zoom Meeting Integration with Moodle

Zoom can now be integrated into your Moodle course. This allows your students to be able to see which week you may have a Zoom meeting scheduled. By adding the "**Zoom Meeting**" activity you can simply add Zoom to any Moodle section. Follow the steps below to get started.

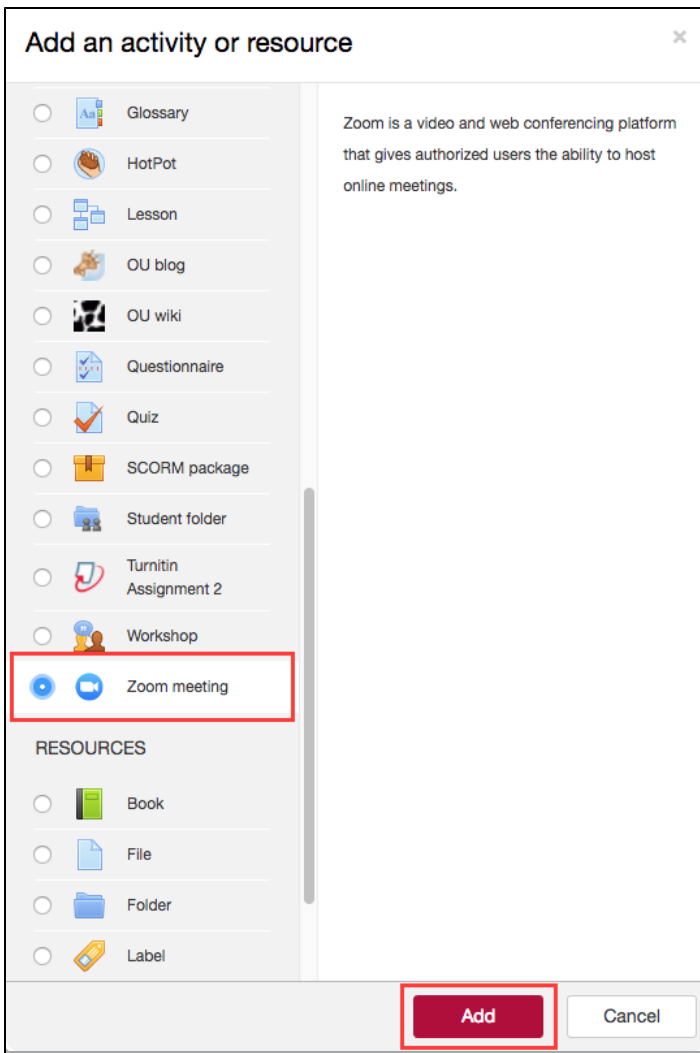

1. Login to your Moodle course, click the **big gear icon** and select **Turn Editing On**.

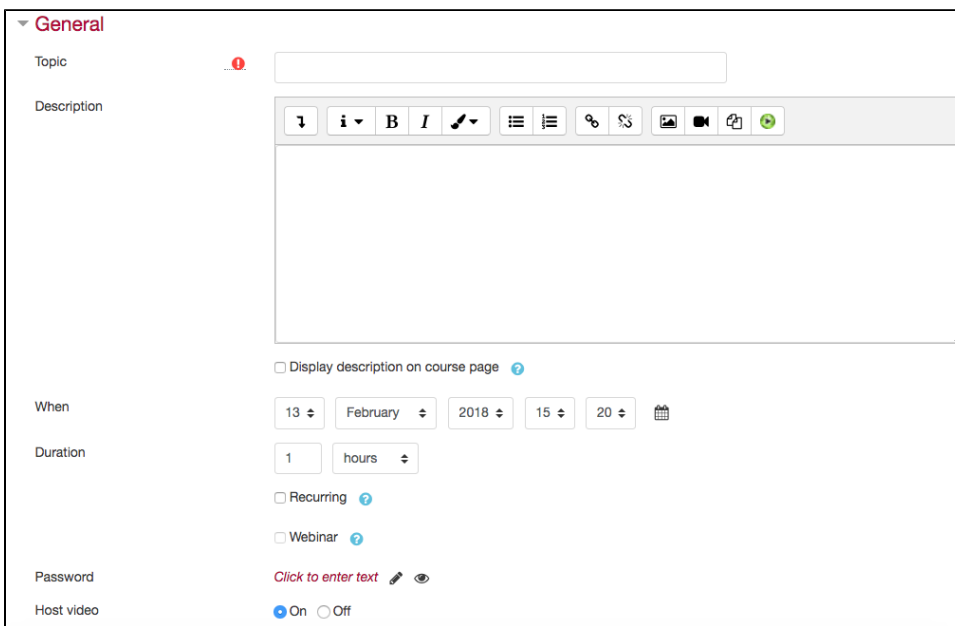

2. Select which section you want to add Zoom and select **Add Activity or Resource**.

3. Select **External Tool** and click **Add**.

4. Fill out the required settings including the date and time of your Zoom meeting.

5. When finished configuring your settings select **Save and Return to Course**.

6. The Zoom Meeting activity will then show up in the section you selected.

7. Click on the Zoom Meeting activity to see your saved settings. Click the Green **Start Meeting** button to begin the meeting. You can copy and past the **Join Link** URL to share with others outside your Moodle course.
