Connecting from Windows

1. Click your **Start** button.
2. In the **Search** box Type **\\swat-print** in the search box and press Enter. If prompted for credentials, enter GARNET\username in the username field, and your password.
3. Find the **printer queue name from the table above**.
4. Double-click on the printer (it will install automatically)

Connecting from macOS

1. Download the Mac Printer Drivers. [Download Mac Printer Driver](#)
2. Unzip and run the **Brother_PrinterDrivers_MonochromeLaser_1_3_0.pkg** installer. This installer may warn that it cannot open because it is from an unidentified publisher. You can launch the installer by control-clicking on the file and choosing "open".
3. Open **System Preferences**, select **Printing & Scanning**, and click the lock in the lower left corner to make changes.
4. Select the **+** (**plus sign**) to add a printer
5. Click the **IP** tab
6. In the Address field, type **swat-print**
7. For Protocol, choose **Line Printer Daemon - LPD**
8. In the **Queue** field, enter the **printer queue name from the table above**.
9. Under **Name**, copy and paste name from **Queue** field.
10. Under **Use**, select the option for **Select Printer Software...**, and search for the **printer model from the table above**.
11. Click **Add**. After you click Add, the Printer list window will reappear with the selected printer added to the list of printers.
