

Canon Printer Drivers

Description	Canon Printer Drivers
Access	Everyone
Platform	<div style="display: flex; flex-direction: column; gap: 5px;"><div style="background-color: #f4a460; padding: 2px 10px; text-align: center; font-weight: bold;">MAC</div><div style="background-color: #8eb9e2; padding: 2px 10px; text-align: center; font-weight: bold;">WINDOWS</div></div>

Windows Installation Instructions

1. Removing old printer:
 - a. Click your Start button
 - b. Select 'Devices and Printers'
 - c. Right click printer and select 'Remove Device'
2. Click your Start button again
3. In the Search box Type **\\swat-print** in the search box and press Enter. If prompted for credentials, enter GARNET\username in the username field, and your password.
4. Find the printer you're looking for.
 - For ease of use, the printer naming convention is "department-building and room number", example "its-beardsley110"
 - If you do not know, or cannot determine, the name of the printer, please contact the Help Desk for assistance.
5. Double-click on the printer (it will install automatically)

Mac Installation Instructions

1. Download and install the Mac Printer Drivers. Double-click the **PS_v4.15.0_Mac.dmg** installer. This installer may warn that it cannot open because it is from an unidentified publisher. You can launch the installer by control-clicking on the file and choosing "open".
2. Open System Preferences, select **Printing & Scanning**, and click the lock in the lower left corner to make changes.
3. Remove old printer:
 - a. Click the printer you would like to remove, then select the **-(minus sign)** to remove the old printer
4. Installing new printer:
 - a. Select the **+(plus sign)** to add a printer
5. Click the **IP** tab
6. In the Address field, type **swat-print**
7. For Protocol, choose **Line Printer Daemon - LPD**
8. In the **Queue** field, enter the name of your printer.
 - For ease of use, the printer naming convention is "department-building and room number", example "its-beardsley110"
 - If you do not know, or cannot determine, the name of the printer, please contact the Help Desk for assistance.
9. Under **Name**, copy and paste name from Queue field.
10. Under **Use**, select the option for **Select Printer Software...**, and browse to your Canon printer model (see step 1).
11. Click **Add**. After you click Add, the Printer list window will reappear with the selected printer added to the list of printers.
