

Turnitin Assignments

Creating a Turnitin Assignment

Turnitin assignments are added from the Activities list when you add an activity or resource. From the course home page, start by turning editing on.

To add a Turnitin assignment follow these steps:

1. Click **"Add activity or resource"** in the section you choose. Then select Turnitin from the Activities pop up menu.

2. On the assignment creation page, enter the assignment name and description.

The screenshot shows the "General" section of the assignment creation page. It includes a text input field for "Turnitin Assignment Name*" and a rich text editor for the "Summary". The rich text editor has a toolbar with various icons for text formatting and content insertion. At the bottom, there is a checkbox labeled "Display description on course page" with a help icon.

3. Choose whether or not students are allowed to view Originality Reports for their submissions by selecting yes or no from the Display Originality Reports to Students option.

Submission Type* ?	Any Submission Type ↕
Number of Parts ?	1 ↕
Maximum File Size ?	Site upload limit (40MB) ↕
Anonymous Marking ?	No ↕
Allow submission of any file type? ?	No ↕
Display Originality Reports to Students ?	No ↕
Grade Display ?	Show grades as Fraction (e.g. 89/100) ↕
Auto Refresh Grades / Scores ?	Yes, automatically refresh originality scores and grades ↕
<input type="checkbox"/> Set these values as assignment defaults	

4. Select start and due dates for the assignment. Specific times are also selected. Students are only able to submit once the start date and time has passed. After the due date and time, students will be blocked unless late submissions are enabled. You must select a post date for the assignment. The post date comes after the due date and determines when marked papers or grades will be available for student view.
