What Google services are available with my Swarthmore Google account?

Current services are available (on desktop) by clicking on the nine-dot menu toward the upper right-hand portion of your screen, and include Gmail, Calendar, Drive, Docs, Sheets and Slides, and many others. Contact support@swarthmore.edu if you have questions about the availability of a specific Google service.

At times you may come across links to Google services that we aren’t offering and you’ll see a “Service not available” message.
