Cannot Print Email

Some Windows users have had trouble printing email from Gmail. Performing the following steps should resolve this issue:

1. Open EMET using windows search
2. Click “Configure System” and change the SEHOP option to “Application Opt Out”
3. Click Configure Apps and add Chrome. Uncheck SEHOP.
4. Close EMET

If this does not work for you, please get in touch with the ITS help desk at help@swarthmore.edu.
