Remote Teaching Studios

ITS has adapted a number of classrooms as Remote Teaching Studios, based on a design from Johns Hopkins University. These spaces allow for more dynamic remote teaching and the creation of better recorded lectures and teaching materials by providing a teaching space with studio lighting, cameras, whiteboards, a teaching computer, multiple monitors, and other associated technology.

Remote Teaching Studio Rooms:

- Kohlberg 114
- Kohlberg 328
- Beardsley 305
- Science Center 102

Contact mjones1@swarthmore.edu for more information. Rooms may be reserved through SwatCentral.
