

# Self-Service Guest Wireless

All visitors to the Swarthmore College campus have access to the wireless network through the SSID SwatGuest. Registration for an account is required. Self-service guest accounts are good for 4 days. For longer stays, a new account can be created after the initial one expires.

Please note:

- A single account can be used on all of your wireless devices.
- Internet bandwidth is limited to 500 Kbps per device.
- Open access is provided to the Internet and to public accessible servers at Swarthmore. No access is permitted to printers or internal Swarthmore servers including e-mail servers.
- As most other public WiFi services, **SwatGuest is not an encrypted network**. Use https or other secure applications if you need to send personal or confidential data.

SwatGuest registration has been verified to work with all major web browsers including Firefox and Chrome. If you have a problem registering, please try a different browser, such as Internet Explorer on Windows or Safari on Macs.

On mobile devices, you may not have to use a browser to register or login. For example, on iPhones and iPads, simply selecting the SwatGuest network will cause the initial login screen to appear. The rest of the process is the same as that described below for Mac and Windows computers

or  download the SwatGuest Instructions [PDF].

## Creating a Swat Guest Account

1. Activate your wireless network adaptor and look at the list of available networks.
2. Choose "SwatGuest"

3. Open a browser and go to any web page. You will be redirected to the SwatGuest login area.
4. At the bottom of the dialog box, click on the link "Need an Account? Click Here"

5. Enter your name, a cell phone number with no special characters or spaces, and an email address and click the check box next to "I accept the terms of use".

Please complete the form below to gain access to the network.

**Visitor Registration**

\* Your Name:   
Please enter your full name.

\* Phone Number:   
Please enter your cell phone number. Please use 1+10 digits.

\* Email Address:   
Please enter your email address. This will become your username to log into the network.

\* Confirm:  I accept the **terms of use**

\* required field

Already have an account? [Sign In](#)

6. Click the "Register" button when done. Your guest account information will be sent as a text message to your cell phone and sent to your e-mail address.
7. You will receive a confirmation page in your browser like the one below.

**Swarthmore**

Please check your cell phone for a text message with details of your Swarthmore College Guest Wireless account. An additional message will be set to your email. **Note: SwatGuest is not an encrypted network. Use care with sensitive information.** This account is active for the next four days.

[Login Here](#)

8. Once you have retrieved your SwatGuest password, click on the "Login Here link." Enter your Username (email address used to register) and your newly retrieved Password. Click Log In.

**Swarthmore**

Please login to the network using your SwatGuest username and password.

**Network Login**
