RStudio Server

RStudio is a visual interface for the R statistics program. Swarthmore runs an RStudio Server Pro instance at http://rstudio.swarthmore.edu. You can log into the server using your Swarthmore username and password, but first need to request an account.

- Shiny Server
- Using Git with RStudio Server

Troubleshooting

Terminal or Shell Not Working

If there are problems with opening up a new Terminal or Shell, try going to Tools Global Options Terminal. Then uncheck "Connect with Websockets".
